## About me

Dedication, persistence and curiosity are perhaps the best words to define me. I enjoy working as part of a team and individually, and I have a quick learning ability that allows me to adapt to new challenges.

## Professional Opportunities

I'm looking for challenges and opportunities which allow me to keep learning and growing.

## Experience

. Host Hotel Systems (23/01/2023 – Present)

Full-Stack Developer

At this company, I work on C# and React projects aimed at the hospitality sector, where I specialize in the GXP (Guest Oriented Services) area, with the aim of facilitating and improving the guest experience. In this area, as well as software, I also work on integrations with peripherals (printers, card readers, Payment terminal, among others). The project management and coordination is done using GIT.

. Devtech (29/11/2021 – 27/12/2022)

Front-End Developer

I worked specially with Flutter and a little with PHP to commit a human resources management and technical maintenance project, with the aim of improving and structuring the company (Frutas Patrícia Pilar).

. BeiT (Erasmus) (24/05/2021 – 29/08/2021)

Front-End Developer

I developed small projects in C# and Python to increase the team's efficiency. I also had the opportunity, as a web designer, to give their products a new image based on their preferences.

. Siemens Healthineers (Internship) (27/04/2021 – 13/05/2021)

Development Technical Assistant

I studied and structured SQL queries to respond to customer needs and developed Python scripts to automate the use of Excel files with those same queries.

## Technical Skills (Level)

 React \_\_\_\_\_ 08/10

 C# \_\_\_\_\_ 07/10

 SQL Server \_\_\_\_\_ 06/10

 Flutter \_\_\_\_\_ 05/10

 PHP \_\_\_\_\_ 03/10

 PostgreSQL \_\_\_\_\_ 03/10

 Python \_\_\_\_\_ 02/10

## Road Tools

 GIT

 Kalipso

 Firebase

## Language Skills

Portuguese (Native Language)

English (B1)

## Extra

## Interests / Hobbies

# Qualifications

## . Professional Course in Management and Programming of Computer Systems

Escola Secundária Henriques Nogueira - Torres Vedras, Lisboa, Portugal

### Socio-Cultural Training Component:

- Portuguese (B)
- English (C)
- Area of Integration
- Information and Communication Technologies
- Physical Education

**Final Grade**

16/20 Marks

### Scientific Training Component:

**Training Time**

15/09/2018 – 14/11/2021

- Physics and Chemistry (B)
- Mathematics (B)

### Technical Component:

**Professional Aptitude Test (PAP)**

Centro Fitness - Website for the Management  
of a Gymnasium (17 / 20 marks)

- Operating Systems
- Computer Architecture
- Communication Networks
- Programming and Information Systems
- Training in the Work Context

## . Safety Certificate in the Professional Informatics Area (Simulated Practice)

Associação Nacional de Professores de Informática (ANPRI)

### Topics covered during the activity:

**Final mark of the project**

20/20 Marks

- Computer Networks
- Digital Platforms
- Technological equipment
- Mobile devices
- IoT (Internet of Things)
- Antivirus
- Firewall
- Encryption
- Fake News
- Copyright
- Security procedures in an online purchase
